

## Erratum

Stephen Palmisano, Darren Burke, Robert S Allison, 2003 “Coherent perspective jitter induces visual illusions of self-motion” *Perception* 32 97–110

Figure 4 of this paper (page 105) is incorrect (as printed, it is identical to figure 5 except for the labels). The correct version of this figure is shown below. We apologize for this error.

**Figure 4.** The effect of the type of jitter (no jitter, perspective jitter, and non-perspective jitter) on (a) the latency to vection onset and (b) the total vection duration. When present, jitter occurred in either the horizontal, vertical, or both the horizontal and vertical directions. Error bars represent standard errors of the means.
